TLS
TOTAL LABORATORY SERVICES

UK-Wide Delivery

WELCOME...

Did you know that TLS can supply all your dissolution and disintegration parts, consumables and accessories? We are your total laboratory service and one-stop-shop for all dissolution and disintegration testing requirements.

We have a large range of accessories and consumables applicable to most testing scenarios and compatible with all the leading manufacturers. All our products are made to excellent standards, are durable, and wherever possible individually serialised for help with compliance and documentation.

Inside you'll find glassware, sinkers, USP apparatus, cannulas, meshes and much more to keep your dissolution and disintegration testers running smoothly. We're always happy to receive enquiries and offer advice, so please do get in touch if you think we can help.

sales@totallaboratoryservices.co.uk or call **01258 861817**

The TLS Team

Dissolution Essentials: Everything you need, from one supplier base.

Disintegration Must-haves: Tubing, mesh and full basket racks available.

Custom Manufacturing

We understand that there are several different manufactures of dissolution and disintegration testers out there, and each one offers their own parts and consumables. Sometimes the parts are interchangeable, but sometimes they are not. Sometimes you might not have the OEM number, or the common OEM is not the same as the brand you use.

But don't worry, this isn't a problem, because we can source the correct part that will fit with your machine,

As long as you know the make and model of the equipment you require parts for, we can help, so if you cannot find the item you're looking for in this catalogue, then drop us a line and we'll quickly find it for you. And if it's not available, there is also a chance that we can have it specially recreated.

Can't find what you're looking for?
It's not a problem, there are many other options available for dissolution filters, and we can manufacture and supply plenty of other sizes and types. Just let us know what it is that you need, and we'll do the rest.

Intrinsic Dissolution

Woods Apparatus

Part No.	Description	OEM ref
IDASET-xx	Intrinsic Dissolution Apparatus - Complete Set. Includes Shaft & Holder, Punch, 8mm Die, Gasket and Surface Plate.	-
IDASNH-xx	ntrinsic Dissolution Shaft and Holder, 316 Stainless Steel Electropolished	-
IDAPLT-01	8mm Intrinsic Dissolution Punch and Handle	12-4120
IDAPCH-01	8mm Intrinsic Dissolution Punch and Handle	12-4140
IDADIE-01	8mm Intrinsic Dissolution Die includes gasket, 316 Stainless Steel, Electropolished	-
IDAGST-01	Gasket for Intrinsic Dissolution Surface Plate	-

Dissolution Basics

You can have automated or manual sampling, depending on the type of dissolution system you are using.

Circular Motion

Dissolution tests involve a spinning shaft and apparatus inside a round-bottomed vessel. Covers are placed on top of the vessel and a small hole for the sample probe allows for media extraction. As the shaft spins, the sample dissolves and forms a solute with the test media. There are many different types of vessel, vessel cover, sample holders, shafts, and apparatus to choose from.

Tablet / Sample

Disintegration Basics

Disintegration baskets come in either Type A configuration or Type B. Type A has 6 glass tubes, and Type B has three. Type B is commonly used for European Pharmacopeia testing. All basket tubes have a mesh bottom and come with small disks that keep the sample submerged in the tube. The entire basket dips in and out of a flat-bottomed beaker, allowing the samples to break apart .

Pharmacopeias

These are the compliance organisations that dictate test standards, equipment and methods commonly used around the world. The most commonly referred are:

United States Pharmacopeia (**USP**)
European Pharmacopeia (**EP**)
Japanese Pharmacopeia (**JP**)
